HARMONY COUNCIL JULY MEETING

PREMIER A. L. MACDONALD
Angus L. Macdonald's Liberal Government was swept back into power on June 29 in the Nova Scotia general elections on a vote of ten that won for it 25 of the Legislature's 30 seats and a vast Opposition. Leader Gordon S. Harrington down to personal defeat in his own riding.
Five Conservatives were elected, three less than in 1933. All Cabinet ministers were returned with substantial majorities.
Liberals were victorious in all five Halifax seats—three in the city, two in the county. They swept all eight in Cape Breton Island.

COWS NEED MINERALS FOR MILK PRODUCTION

Dealing with the mineral deficiency of soils in Oxford county in Ontario, G. R. Green, Woodstock, described to the recent convention of Ontario Agricultural Representatives at Guelph the systematic investigation of dairy herds on 200 farms and the remarkable improvement in health and productivity of the cows which were given a mineral supplement in their feed. Milk flow and percentage of butter-fat increased, and breeding troubles disappeared.

Dr. W. R. Graham, University of Missouri, discussing "Mineral Metabolism," stated that fat and carbohydrate metabolism is dependent on phosphorus and indicated the importance of building up the phosphorus in the cow's body by giving her a suitable mineral supplement in the feed, especially during the low or non lactation period.

The association of iodine with butter fat production was shown also. It was depressed by the removal of the cow's thyroid gland and increased again when a thyroxin hormone containing iodine was injected.

According to Dr. Graham, cod liver oil and fish oil in the feed have the effect of lowering the butter-fat content of the milk, this been due probably to the formation of fatty acids.

The Melody Kings of Lethbridge played for a dance in the Community hall Friday evening. However the season proved poor to draw a crowd and in consequence only a few were in attendance.

LOCALS

Misses Rose and Laura Chaproniere are visiting in Calgary this week.

Teddy Davies was a guest at the farm home of Mr. and Mrs. Dick Davis for a few days this week.

Mrs. W. A. McIntyre, who spent the past week visiting in Calgary and Banff returned to Champion on Monday.

M. G. Clever has glassed in the porch surrounding his house and has made a marked improvement in the appearance of the building.

Geraldine, Earl and Arlene Parcell and Glen Hummon had their tonsils removed at the local hospital recently.

Miss Chapman of Calgary has accepted the position on the local hospital staff, vacated by Miss E. Smith.

A large number from Champion and district attended the Stampede held at Carmangay on Tuesday.

Mrs. G. M. Campbell and Miss Rheta Campbell left by bus Monday for a two weeks' holiday to be spent in Brandon, Manitoba.

Miss Margaret Gatenby, who is confined to her bed, is making fair progress toward recovery.

Mr. and Mrs. C. Marshall and family arrived Sunday from Vancouver and have taken up residence in the home recently occupied by R. D. Farries.

Mr. and Mrs. A. W. Jopling, Miss Ruth Jopling, Mr. and Mrs. F. W. Clever and Miss Louretta Clever expect to leave Saturday for a weeks holiday at Waterton National Park.

Mr. and Mrs. J. A. Bjornson and Alvin Bjornson are business visitors in the Coalville district.

Alex Latiff and Art. Ulrich left recently by car for a short holiday to be spent in Nelson, B.C. Upon their return they will be accompanied by Roy Robinson, who is holidaying there.

The Anglican congregations of Champion—Carmangay will meet in Champion Community hall for Holy Communion at 11 a. m. Sunday, July 18th.

Mr. S. Stephenson of Calgary has arrived in town and will take over the management of the Savoy Hotel.

Mr. and Mrs. Robert Banks and Miss Mary Banks of North Bend, Oregon were recent visitors at the home of Mr. and Mrs. Guy Volney. In company with Mr. and Mrs. Volney, the party spent last week visiting Banff, Lake Louise and the Calgary Stampede.

Mrs. C. A. Wright and Mr. and Mrs. James Wright of Los Angeles, Calif. passed through Champion Tuesday, en route to Shoultice, where they will spend a few days visiting Mr. and Mrs. Myrl Palmer. They will then return to the Champion district, where they will visit for a few days.

Visitors in the district from Saskatchewan state that although things may not be too good here, this is a garden of Eden compared to parts they have left, where another crop failure is assured and where water for stock is becoming very scarce.

Vann-McNaughton Wedding, Charming Event.

The beautiful home of Mr. and Mrs. Harry McNaughton was the scene of a charming mid-summer wedding on Wednesday afternoon at three o'clock, when Edna Emma, second oldest daughter of Mr. and Mrs. Harry McNaughton, became the bride of Harvey Leonard Vann, son of Mr. and Mrs. Joe Vann of Medicine Hat, Alberta.

The ceremony was performed in the archway of the spacious living room, which was beautifully decorated with flowers from the gardens of Mrs. Ed. Carlson, A. Miller and W. W. Noble of Spokane and included a profusion of poems, delphiniums, apries and calla lilies. Pink and white streamers and wedding bells also added to the beauty of the picturesque setting. Rev. Peter Dawson, M. L. A. officiated. The bride, who was given in marriage by her father, was lovely in a floor length gown of white organza and lace, cut on graceful princess lines. The filmy veil, which was beautiful with insets of real point lace taken from her mother's wedding veil, was held to the head with a row of orange blossoms. White kid slippers and white gloves completed her ensemble and she carried a bouquet of pale pink lilies, roses, daisies and lily of the valley. Miss Augusta McNaughton, as maid of honor, and the Misses Gretchen and Geraldine McNaughton as bridesmaids, were gowned alike, in pastel shades of blue, green and pink organza. Their gowns were floor length, modish to the figure with ruffles at the neckline. Caps in harmonizing shades, white gloves and pearl slippers completed their ensembles, the maid of honor carrying a bouquet of daisies and lily of the valley, and the bridesmaids, colonial bouquets. The bridegroom was attended by Jim McNaughton, brother of the bride. Mrs. Ted Carlson was best woman. The bride wore a "Beausé."

About thirty guests were present and a buffet luncheon was served. The table being centered with the three tiered wedding cake. Mrs. McNaughton wearing a white flowered crepe and a corsage of red roses was assisted by Mrs. W. Haight, Miss Arlene Arsenault, J. Smith, Mrs. T. Carlson and Mrs. W. R. McLean. A toast was proposed by Rev. Peter Dawson, M. L. A. and was responded to by the bridegroom.

For a honeymoon, which is being spent at Calgary and Banff, the bride chose for travelling a rose crepe ensemble, with a rose felt hat and other accessories to match. Later Mr. and Mrs. Vann will take up residence at the Savoy Hotel.

The bride is a native daughter of Champion, having grown up in this district and having taught in the district for the past nine years. She has made a host of friends, who wish her and Mr. Vann, future happiness.

Among the out-of-town guests were Mrs. J. Smith, Miss Laura Smith and W. Noble all of Spokane, Mrs. W. Haight, Fred and Edna of Calgary and L. Thiesmeyer of Armada.

**Women's Institute
Monthly Meeting**

The Champion Women's Institute held their July meeting at the home of Mrs. M. G. Clever on Tuesday, July 13th. Thirteen members and five visitors were present to enjoy the annual treat of delicious ice cream and strawberries prepared by Mrs. D. Watkins. The Flower Show is expected to be held about the middle of August, and tea will be served in connection with it. During the afternoon Mrs. J. A. McQuarrie of Barons, District Director, read an interesting paper on "Radium"—its discovery and preparation before being placed in the hands of the medical profession as an effective weapon against the dread disease of Cancer. The Little Low Constitution Conference will take place in Lacombe on July 26th. There will be no meeting of the local branch during August.

J. D. Henderson, who with his family is holidaying at Waterton National Park, was a business visitor in town Thursday, and reported that at that time there were few at the Lakes, conditions for holidaying were ideal. Mr. and Mrs. G. K. McLean accompanied him on his return to the Park.

REGISTERED SEED PLOTS SHOW FINE SPECIMENS

A visit to the pure seed plot sponsored by the Alberta Pacific, Searle and National Grain Companies, on Tuesday of this week, proved to be extremely interesting and undoubtedly beneficial. Enclosed as it is in a lovely setting, banked by beautiful groves of trees and other shrubbery, on the farm of W. F. Lethbridge, the picture alone that it presents is indeed worth while.

All grains in the plot are headed out, and it is interesting to note the growth of the seventeen varieties of pure seed wheat, oats and barley. The Reward wheat shows more height and although there appears to be little difference in the heads, upon close examination the head of the Reward also seems somewhat advanced to other varieties. The Thatcher variety secunda the best with Mayday third.

In the five varieties of barley the O. A. C. and Mercury are holding first place, with the former showing slightly more growth. The Trebi variety has heavy foliage but less straw.

The difference in the oats is more marked, the legacy being showing the further advanced.

The soy beans are showing remarkable growth and will undoubtedly be one of the future crops of the district.

Fertilizer was used in some instances but no particular advantage appears evident. Very little harm has resulted to the grain from the continued dry weather.

It is the writer's opinion that a visit to the plot will undoubtedly stimulate a more general consciousness of the value of pure seed and its worth to the country in maintaining the export of its field products.

The agents in charge extend a cordial invitation to those interested to visit the plot.

Mr. and Mrs. Fred Watts and Patricia, accompanied by Mr. and Mrs. F. Caldwell were Stampede visitors Saturday.

Other visitors Saturday were Mr. and Mrs. B. Hummel and family, Mr. and Mrs. W. F. Bozarth, M. F. Hamilton, A. W. Jopling, W. Harris, Jack Doyle and family and Nels Running.

RECORD CROWD ATTEND CARMANGAY STAMPEDE

With ideal weather, a record crowd attended the Carmangay Stampede last Tuesday.

Mayor Elton of Lethbridge, who officially opened the big annual event.

The grounds were rearranged for this year's event, and the entire scheme worked out to be very convenient in handling the different events.

New arenas and chutes were built and the arena moved to the south side of the grounds. The agricultural building was also moved with part of the roof utilized to form a grand stand, in the building refreshments were served. The local men volunteered their labor in making the change, which is a credit to workmanship.

The rodeo events brought plenty of action, many of the participants were reserve visitors at the Calgary Stampede and were in fine form, displaying some nice roping, riding and calf roping.

In the riding with saddle "Slam" Armstrong won first money, for bareback riding, H. Bedford, calf roping, H. Connell, M. G. Sanford of Champion, won the Derby, and the Cohen horse from Calgary the pony race.

In the ball tournament Lomond won from Carmangay, by a 2-1 score, and Enkown won from Lomond by a score of 8-4 cinching first money.

In the softball events, the Orphans won over the Blue Birds by a 8-4 score.

Alex Latiff and Art. Ulrich returned from a weeks visit at Kimberley and Nelson B.C.

Mrs. R. I. Baker and family left for Calgary early this week.

RELY ON U. G. G. TWINE

You can rely on U. G. G. Binder Twine just as you can rely on United Grain Growers to give you good service. From long experience farmers all over the west have learned that U. G. G. Twine is of highest quality. The price is the lowest practicable for good twine, and twine will be ready for delivery when needed.

Let your U. G. G. Agent know now that you want U. G. G. Twine, so your supply can be ready for you.

UNITED GRAIN GROWERS LIMITED

Multiplicity Of Duties

Royal Canadian Mounted In Northwest Territories Kept Busy

Wherever the scientist, explorer, prospector and surveyor goes in the Northwest Territories he finds the Royal Canadian Mounted Police to help him. And he finds the Mounted represents just about a dozen kinds of officialdom.

A government statement dealing with the Northwest Territories discloses the information that "the prevention of lawlessness and apprehension of offenders are but a part of the multiplicity of duties performed by members of the force."

"They are entrusted also with enforcement of the Northwest Game Act, the Migratory Birds Convention Act and various other Dominion Acts."

In certain circumstances they are called on to assume customs and immigration duties, to collect income taxes, accept applications for naturalization, act as postmasters, mining recorders or coroners; to issue permits, pay wolf and coyote bounties, register vital statistics, issue ration tickets to Eskimos and Indians.

All commissioned officers are Justices of the peace and all ranks are commissioners administering oaths. Sheriff of the Northwest Territories is Major-General Sir James Macleod, commissioner of the R.C.M.P.

The force has men at 22 points. Along the Mackenzie River are stationed at Resolution, Providence, Simpson, Norman, Good Hope, Arctic Red River, Matland and Athabasca. Scattered along the Arctic shore are at Coppermine, Cambridge Bay, Cameron Bay, Fort Rae and on the coast at "St. John's."

In the Slave River area is a station at Fort Smith. In the Hudson Bay area at Chesterfield and on McLeod Bay at Bellanca. Further east are posts at Port Burwell, Ekimko Point, Lake Harbor, Pangnirtung, Pond Inlet and Craig Harbor.

Forfeits Crown For Love

Prince Charles Of Sweden Marries Countess Elsa Von Rosen, A Commoner

Prince Charles of Sweden sacrificed any chance of inheriting the throne when he married Countess Elsa von Rosen, a commoner.

The nephew of King Gustaf V of Sweden and brother of the late Queen Astrid of Belgium, lost his title and prerogatives in the Swedish royal family.

He acquired a new title, however, becoming by royal decree Prince Charles Bernadotte. His bride, daughter of the Swedish court master of ceremonies, became Princess Elsa.

Prince Charles was the third member of the Swedish royal family in recent years to forfeit his crown rights for love.

The new princess, seven years older than her 26-year-old husband, was divorced in 1935 from M. Agnes von Rosen. She has three children.

Lonely Island Was Safer

Civilization Proved Too Much For Boy From Tristan Da Cunha

Civilization proved too much for the youth who left the loneliest island of the world. After less than a year in London he died.

Donald Glass was a direct descendant of William Glass who founded the settlement at Tristan da Cunha, in the South Atlantic, more than a century ago.

Donald left a happy life, where disease is virtually unknown, determined to succeed in the great world.

He was accepted by the Boy Scouts who tried to give him a life. He had something like that in the home from where he came, but they failed to consider the germs that afflict civilization. He fell ill and gradually declined.

Hamburg, Germany, has a population of more than 1,128,000.

"Wouldn't it be a joke if you was to peg out with only half yer blinkin' sentence done?"—Everybody's, London.

Job Was Through

Crude Operation By Amateur Surgeon Probably Saved Man's Life

A crude operation performed with a fishing hook and a net-mending needle appeared to have saved the life of a man badly torn by a rusty spike on his leg.

Despite twelve days he spent toasting with pain while passing bolts over his leg, the injured man, who was expected to survive.

Brooks, lessee of the windspout off Southern California, slipped while repairing a gaff two weeks ago and a spike ripped a wound two inches in length.

San Miguel is without a doctor, a boat, or any means of communication with the mainland. No ship was to be seen.

Realizing that Brooks would bleed to death if he did not get help, while the windspout was in the air, he decided, Herbert Lever, only man on the island, set to work. Lever, who had been a fisherman, used a fishing hook and a net-mending needle to sew the wound.

The injured man dug his nails into the bank and gritted his teeth. Lever bled up the wound without anaesthetic. He prayed while he sewed.

For twelve days no passing craft heeded their distress signal—the American flag with the word "HELP" written on it.

Then the motorship Vaqueiro of Santa Barbara arrived four days ahead of time with supplies. It rushed Brooks to the mainland.

Physicians at Cottage Hospital said the amateur surgeon was so thorough that no infection developed.

Selling Canada's Wheat

Publicity Campaign In Britain Planned With Care

The Canadian Wheat Board sends out a brochure containing hand-colored, typewritten reproductions of the material used in its United Kingdom advertising campaign.

The board says that so far it knows this which no first attempt which has been made by any wheat-exporting country to promote the sale of its wheat by advertising and publicity work.

The campaign was planned with great care. Advertisements designed for their respective fields were used in the newspapers of England, Scotland, Northern Ireland, emphasizing the advantages of Canadian hard wheat in the making of bread.

At the same time a series of advertisements in trade journals was addressed to millers, bakers and retailers.

The Canadian Wheat Board is dealing with a product of unexcelled quality, trying to increase its sale in the rich and concentrated markets of the United Kingdom, and its campaign appears equal to the occasion.

—Ottawa Journal.

Was Infraction Of Law

Man Found His Neighbourly Act Cost Him Finely

It cost George Theobalds of Mennon, Sask., just \$25 to be a good neighbour. He undertook to transport the land from this town, 28 miles northwest of Saskatoon, a few miles to a picnic ground, but before he had done his good turn he met up with the law. He was fined in Royal Canadian Mounted Police court for infraction of the vehicle act by carrying passengers in a truck.

A motorist driving 45 miles an hour steadily for 10 hours a day would require 13 years, 10 months, and 21 days to travel over all the improved roads of the United States.

From here it is beginning to appear that the motorist is beginning to be much like trying to throw away a load of chewing gum, says Judge.

Hamburg, Germany, has a population of more than 1,128,000.

—Ottawa Journal.

"Wouldn't it be a joke if you was to peg out with only half yer blinkin' sentence done?"—Everybody's, London.

Festival Date Changed

Set Back One Month When Delegates Met At Moose Jaw

Dates for the 1938 provincial music festival were set back a month as delegates from five provinces concluded the 12th annual conference of the Western Canada Music Festival Association at Moose Jaw.

In 1937, the festivals took place at Saskatoon and Regina will take place the latter part of April, from April 25-30. At present, no definite arrangement has been made as to whether Regina or Saskatoon will host the festival next year.

The 1938 festival will be followed, whereby in 1938 Regina will be first, Saskatoon second.

Delegates were present from Saskatchewan, Alberta, British Columbia and Quebec.

Represented for the first time at the conference was the Quebec Musical Competition festival which held its first festival this year in Montreal. The organization was represented by Dr. J. Willis, Montreal.

Adjudicators for 1938 will be Sir Hugh Robertson, Glasgow, Scotland, who will adjudicate choral and vocal competitions; Maurice Jacobson, London, instrumental and choral adjudicator; and Stewart Wilson, London, who will adjudicate vocal competitions.

Mr. Wilson is new to Canada, but Sir Hugh Robertson has been in the jurisdiction on several occasions as adjudicator.

Mr. Jacobson has been here once before.

In 1938, the same three adjudicators who recently completed their tour of Canadian festivals will return: Dr. J. F. Stott, George Dods and Arthur Benjamin. Dates for festivals begun in 1938 and 1939 were set recently, as delegates pushed through to completion in two days a session originally scheduled to last three days.

SELECTED RECIPES

PICKLE RELISH

2 qts. cucumbers
2 qts. onions
1 large can tomato or cabbage
3 peppers, red or green
1/2 gallon mild vinegar
1/2 cup brown sugar
2 cups Crown Brand Corn Syrup
1/2 cup Benson's Corn Starch
1/2 cup mustard
1/2 teaspoon turmeric powder
2 ozs. mustard seed
2 ozs. celery seed

Mince. Chop all vegetables fine. Let stand in brine overnight (1/2 cup salt to each quart vinegar). Drain. Make a syrup of vinegar (reserving 1/2 cup for dressing), sugar and Crown Brand Corn Syrup. Add vegetable and let come to boil. Make a thick sauce of Benson's Corn Starch, seasonings, and 1/2 cup cold vinegar. Stir into the mixture. Again bring to the boil; seal in sterile jars. Makes 5 pints.

Had Successful Year

Canada's Fishing Industry Showed Big Increase In 1936

Canada's fisheries in 1936 experienced the most successful year since 1930, the Dominion reported.

Value of production in 1936 was \$16,616,161, the total representing the value of fish as marketed.

Whether sold for consumption fresh or as canned, smoked, dried and salted fish, it showed an increase over 1932, low year of the depression period, of \$13,307,509 or 51 per cent.

Total quantity of fish taken by Canadian fishermen during 1936 was 11,088,279 cwt., with a value at the point of landing of \$22,098,742, compared with a catch of 9,922,018 lb. and a value of \$20,755,787 in 1935.

Easy To Identify

When the police of Hermann, South Africa, inspected the trail of a barefoot burglar, who had stolen \$100 from the Sheriff Holm's bank, told them the capture should be easy. One of the big toes was peculiarly formed. All the well-known jail fakers were passed inspection, and the trail finally led to N. Cupido, an amateur burglar who was sentenced to four months hard labor.

Moonlight has an intensity about one-fourth of a foot candle; bright sunlight at noon has an intensity of about 10,000 foot candles.

Left Legacy For Poor

But Town In Scotland Has No People Who Qualify

There is a small town in Aberdeenshire, Scotland, called Turrit, with a population of over 2,000, who are a very proud people. That is not to say they are conceited, or affect a lofty attitude toward other communities. The colloquial name for it is "Turra," and the locals have a slogan: "Take away Turrit and twal miles around and twal is left of the universe that is worth while." That is the sort of people they are in "Turra." They regard their town and environs and the people within as the hub of humanity.

Turrit has really justification to be proud though. Recently a native of the town died in New Zealand and made a bequest of \$25,000 for the poor of Turrit. That is where the Town Council is in a place. There are no poor in Turrit and the administrators cannot carry out the bequest.

A plan of that kind surely lives up to the distinction which it confers upon itself.—St. Thomas Times-Journal.

A Modern Pastime

Many People Before Public Eye Receive Fan Mail

A writer in the Manchester Guardian considers a trend of to-day that is new and astonishing in vesture—"fan mail."

"Thousands and thousands of these letters are posted every day. It began with actors and actresses, singers and other public entertainers who have for years received letters from their admirers, but as soon as the cinema became the chief medium of entertainment girls and boys, and principally girls began to write to the film stars and fan mail really began. Now it is not confined to film stars, but extends to prime ministers, as we heard from Stanley Baldwin. It extends to everyone who comes before the public eye, even to wrongdoers."

"It is rarely, however, that any one speaks of his pastime. It is a private matter between himself and the adored one, for most of the letters are tributes of admiration."

Accurate Information

Milwaukee Has Plan To Determine What Visitors Spend

If B. Crown, Jr., manager of the Examiner's circulation department is just back from attending a convention at Milwaukee and reports an interesting plan by which the Milwaukee Association of Commerce gets accurate information as to the extent of the expenditures made by visitors to the city. Every delegate to a convention receives a questionnaire which he is asked to fill out showing where he stayed, what stores his purchases were made at and how much he spent on shelter, amusement and other things. The information to be regarded as strictly confidential.—Peterborough Examiner.

Argentina, Canada, China, Great Britain, India, the Netherlands, and the United States are the most important markets for German watches and clocks.

Berlin is now the third largest city in the world, next to New York and London.

The yearly average of forest fires in the United States is 4,700.

Confidence Restored

The recent announcement of Prime Minister Neville Chamberlain and Foreign Secretary Anthony Eden of Great Britain's intention to face the responsibility of rearmament as speedily as possible and to such an extent that "nobody dare treat her with anything but respect" will fall on many receptive and welcoming ears, not only within Great Britain and the Empire but in other countries who look to Britain for leadership in the task of preserving the democratic form of government.

There is no question but that Britain has "lost face," to use an Oriental expression, during the past two or three years, because of her failure to take a stand in the councils of the League of Nations strong enough to prevent the rights of member nations being violated.

Representative newspaper and magazine writers in some of the smaller democratic countries of Europe, such as the Scandinavian group, who have been wont to look to Britain for leadership and who, at any rate in recent years, have been strong friends of Great Britain, have in the past year or two voiced keen disappointment at the situation and more particularly have expressed criticism over the Ethiopian debacle.

But there was a very good reason why Britain could not go further than she did in attempting to enforce sanctions against Italy as the violator of Abyssinia. No one knew better than the British representatives on the councils of the League that if coercive measures were taken to prevent depopulation of the northern African Kingdom she was not in a position to ensure that these methods were carried out.

The British war machine, and particularly the aerial arm of it, had been allowed to become obsolete and no efforts had been made to bring it up to date; or, conversely, it might be more correct to say that other and more belittled nations had built up huge destructive forces and little or nothing had been done by Britain to keep pace with them.

Under these circumstances it would have been futile for Britain to have displayed a flag which was not heavily mailed or to have uttered threats which she could not carry out. She did not want to start something she could not finish. Hence, nothing more could be expediently done than advise and negotiate, in the knowledge that anything more forceful might precipitate a disaster which the great majority of nations hoped to avoid. It was a policy of prudence and that was the only policy that could safely be adopted at the time.

Now, however, that is to be changed. Great Britain has already commenced an active and ambitious program of rearmament which, in a year or two at the outside, will enable her to assume her role as leader of the European and world democracies in the full knowledge and certainty that the utterances and decisions of her representatives will be respected by even the most powerful and belligerent of nations.

The general objective of the program was aptly expressed by Prime Minister Chamberlain when he told his constituents that it was the aim to make Britain so strong that "nobody dare treat her with anything but respect" and his additional announcement that he faced his responsibility "without fear or hesitation" will inspire confidence not only in Britain but in many other countries who are genuinely anxious to preserve world peace as is Britain herself.

Confidence will be further fortified by the supplemental declaration of Sir Anthony Eden that immediate and specific objectives are preservation of the territorial integrity of Spain and the maintenance of the Mediterranean as a main arterial road for the flags of all nations.

Both these objectives have been threatened in recent weeks as the war in Spain progresses. The dismemberment and even the potential dismemberment of Spain would undoubtedly precipitate a general conflict in which all the European countries might ultimately become involved and that is what the majority of the non-belligerent nations of Europe fear so much to-day.

Despite the declarations of individual visitors from Europe to this continent to the effect that a general war will be avoided, it is generally recognized on both sides of the Atlantic that the trend of events in Spain, coupled with a great deal of outside interference, constitutes a grave danger to the peace of Europe and perhaps of the world.

A strong and well-armed Britain, with no ulterior motive to serve, will go a long way to allay such alarms and will do much to ensure peace in Europe and security for the democratic countries of that continent.

Something New To Try

According to the London Chronicle, Monitor, to Horace Greeley, the famous editor, a woman once wrote: "Our church is in dire financial straits. We have tried every device to keep it going—fairs, strawberry parties, turkey suppers, a donkey party, turkey banquets, Japanese weddings, mock marriages, and box overboard. Will you please tell me, Mr. Greeley, what we can do to keep our struggling church from disbanding?"

Starts Annual Patrol

The N. B. McLean, the largest unit of the government icebreaking fleet, has sailed from here on her annual 5,000-mile patrol in Hudson Bay and strait. The ship, under Capt. W. J. Balcom, formerly of Halifax, will be away until October.

Visitor: "Your son is rather small for his age, isn't he?"

Proud Mother: "Oh, no; most boys of his age are overgrown, I think."

Italy used mulety plus 3,000 years ago.

BLACKHEADS

Don't agree blackheads don't disagree them. Get two ounces of peroxide powder from any drug store and rub gently with wet, but not over-dried, blackheads. They simply dissolve and disappear by this simple method. Have a Hollywood complexion.

In comparison with human eyes, the eyes of most birds are telescopic. A small grain particle hardly distinguished by a person standing a yard away from it, is seen 100 yards by some birds.

The Champion Chronicle

C. A. Marshall
Publisher

Thursday, July, 15th 1937

"You sweep out, you trim the windows, you dust off the counters, you make up new price cards, you unpack and arrange new stock, you plan your merchandise showings, you do these and a hundred other necessary jobs regularly is the normal conduct of your business."

"But how about the biggest job of all—contacting the people and telling them repeatedly that you are in business and have the goods they need. Do you do that regularly? Do you figure you are going to get your share of the available business if you don't tell folks about your merchandise or your service at regular intervals instead of doing the job spasmodically or not at all?"

"By all known tests, experience and thousands of records, the acknowledged best-of-all medium for regularity is advertising in the local newspaper. A newspaper going regularly into the homes of your possible customers, not only in town, but the surrounding territory as well, makes it easy enough for anyone to see how your local newspaper offers you the finest kind of a vehicle for carrying your business message regularly to the people."

"And don't think these folks won't miss your regularity of advertising. They look for their newspaper regularly, read it regularly, study its advertising (yours, if it's there) regularly."

"And what's more, you'll find they are buying fairly regularly, too, if you'll just check up, especially with the advertisers who do use space regularly."

Carmangay News

Mrs. Gordon McNabb of Lethbridge is visiting her parents, Mr. and Mrs. Wm. Hicks this week.

Irene and Wilma Ohler left Wednesday for a couple of weeks camping with the Claresholm Star Line Girl's Club.

Piles have been driven and reinforcements are under way on the south end of the C. P. R. bridge across the river.

Mr. and Mrs. Booth of Orillia, Ontario arrived Friday and will be guests at the home of Mr. and Mrs. Walter McKay for a month or so.

Mr. and Mrs. H. Shearer had as their week end guests, their daughter and son in law, Dr. and Mrs. J. H. Brodie of Calgary.

Ralph Smith and son, Bertie of Natal have enjoyed a visit at the home of his sister and brother-in-law, Mr. and Mrs. Wm. Honeyman. Bertie will remain here for a month.

Mr. and Mrs. Walt Neilson returned from their holiday to Calgary and Long View, where they enjoyed a visit at the home of Mr. and Mrs. R. Henson, who until recently owned the Meat Market here.

Quite a few former residents were noticed on the grounds at the Stampede, including: Lou Harbitt, A. B. Hogg, the Jacks, Mrs. Lane Messenger, who is staying with Jim Bowman, Sheldon Gibson and others.

430 books have been taken out of the library to read. The total number of books on hand is 540.

Carmangay News

Mrs. Wm. Moore is enjoying a visit at the home of her daughter and son-in-law, Mr. and Mrs. B. Henson at Hartell.

Mr. and Mrs. E. Lacro returned on Saturday from a two weeks vacation, at Winfield, visiting friends on route.

Wm. and Jack McDougall of Cochrane, were visitors last Friday at the Walter McElroy home.

Mrs. H. S. Pasker has enjoyed a few days visit from her sister, Mrs. George Thompson and daughter, Elizabeth of Bonington Falls, B. C.

Mr. and Mrs. H. Shearer received a short visit last week from Rev. Arden Lewis, former Festical minister of the Carmangay east district, he was accompanied by his wife and little daughter.

The Carmangay west Country Women's Club held a delightful picnic last Wednesday at the Y. T. Ranch. Lots of fun and heaps of good things to eat, especially the ice cream.

On Sunday a jolly picnic was held at Park Lake, about fifty were present. Those members of the Priscilla Club who did not go to Waterton Lakes invited their friends to this picnic. All reported it was a perfect day, and also the park was ideal for it.

The bicycle race which was to have been held recently did not come off owing to Mr. Rowley's hurried departure for his home. It seems a pity no one else was interested enough to see this race carried through and encourage the boys.

The authority which governments take to impose legal prohibitions on business, night with property sometimes is applied to themselves.

Is there any tenable argument, for instance, why car owners should be singled out as the victims of the persistently frequently budget-bolstering grabs of the taxing authorities. The motorist of small income gives from 12 to 15 days of his year, work to pay taxes clamped upon him simply because he owns a car. This was the recent finding of a survey conducted by the American petroleum industries, the accuracy of which may be challenged in some quarters on the ground of bias.

But the motorist will suspect it may be on the side of conservation. He does not need to be told that over Canada as a whole the automotive tax burden he now bears, is out of all proportion to his income. Neither does he need to be told that the levy on gasoline is an undisguised sale tax on a necessity for thousands in his income class. Nor does he require an adding machine to prove to his satisfaction that it falls heaviest on the man of moderate means who can least afford to pay it.

His plight would be had enough if his money were used for his benefit. But when most of it is diverted to other purposes, surely as a matter of common fairness, there ought to be a legal prohibition against such wholesale diversion. Art. 25.

CHATTER

Champion baseball club were forced to take their first defeat in a league fixture at the hands of Blackie, when after a real battle the latter team emerged victorious 7-0, on the local diamond Sunday.

Champion smashed out 14 hits, two home runs by D. Latiff and Walker, off the offerings of Baker while Blackie garnered only 8 hits from Walker. Seven costly errors attributed to Champion's downfall while Blackie played errorless ball, with Baker striking out nineteen men in Walker's eight. Champion nine were undoubtedly crippled by the absence of Robinson and A. Latiff while the Blackie club were playing their best form.

Blackie lineup—Murray c f, Malmberg c, Adamson s, Dawson f, Evans 1 b, Wellman 2 b, Rubelke 3 b, A. Walker r f, Baker p.

Champion lineup—Walker p, Bouzay c f, D. Latiff 3 b, Watts c, Hargraves 1 b, Hagg 2 b, J. Fath s, Higgins r f, R. Fath 1 f.

Line Score, Blackie—

Champion—202 010 001 6 14 7

Two softball games and a regular league fixture provided good entertainment for a large crowd of fans on Sunday.

The first softball game between the Harmony Bluebirds and the Lethbridge Coronets provided a decidedly one-sided game, the latter team having the upper hand throughout registering a 10-1 win against the local girls. The Bluebirds did not display their usual form and showed a lack of practice. The team was also crippled due to a number of their players being away on holidays. On the other hand the Coronets showed splendid form and at no time during the game were pressed for hard play. Weir for Lethbridge pitched a good game allowing very few of the Harmony players to pass first base.

Battery: Champion, Fisher and Tindall; Lethbridge, Weir and Dupen.

The evening game was also one-sided but the Bluebirds made several spurts which called for somewhat harder play from the Coronets, than during the afternoon game, Fisher for Harmony was called

upon to pitch both games, and handled the position well but lacked fielding support. In the last two innings of the game she was relieved by Siler. The final score was 2-0.

Battery: Champion, Fisher, Siler and Tindall; Lethbridge, Krause and Dupen.

Considerable interest was displayed in the Coronets by local fans as their coach Philip Siler is a local boy and just recently left Champion to reside in the southern city. That the girls are well trained showed in every move.

Prospects for rain on Sunday looked very favorable when the sky was heavily overcast and heavy showers reported north, however disappointment was again registered. The persistent hot dry weather is leaving its mark on all field crops especially the early, heavy sowing. Wheat is now in head and in some areas is showing a better stand than was anticipated. Crops west in the Blusson district, even without rain will give good returns while similar conditions prevail in other portions of the district. Generally however the yield per acre has been cut considerably, and fields which suffered from winds and hoppers will yield little or nothing without rain.

Mr. and Mrs. Ernest Williamson formerly of Champion and now of Everett, Alta. have as their guests Mr. Williamson's sister, Mrs. W. R. Morris, Mr. Morris, their son Gordon and daughter Miss Fauna Morris and friend Miss Virginia Harrison all of Wichita, Kans. It is their first visit to Canada. Mr. Williamson and his sister had not met for over thirty years until this visit.
